

## Important update

Changes to take effect on 11/4/2024.

This AEP season has included uncommon amounts of industry change and disruption. As we have communicated throughout the year, Cigna Healthcare<sup>SM</sup> is focused on offering long-term stability to our Medicare customers, as well as to you.

In support of that goal and based on early results from AEP, we are making limited changes that impact less than 3% of our targeted sales outside the New York market. Effective 11/4/2024, we will remove PPO plans from electronic quoting platforms including SunFire and ConnectureDRX. The PPO plans are listed below.

We recognize that mid-AEP changes can be disruptive to your sales approach, and we do not make these decisions lightly. By making small adjustments now, we can better maintain the stability you expect of us and continue to deliver on our commitment to serving our mutual customers. We will continue offering a range of commissionable plan options across our service areas that meet beneficiaries' personal needs, budgets, and lifestyles.
